

Personal tablet arm

A sleek and stylish way to mount and charge your personal tablet.

Now, business jet passengers can incorporate their personal tablet devices seamlessly into the elegant look and functionality of their cabin with Rockwell Collins' personal tablet arm.

From its side-ledge mount inside the business jet cabin, the removable tablet arm offers the convenience of using a personal Apple iPad® or Samsung Galaxy Tab as an alternative cabin display while maintaining the integrity of the cabin design.

The personal tablet arm charges the tablet through a standard iPad or Galaxy Tab USB power cord. The arm plugs into the Venue smart display's (HTSE) base receptacle, which is wired to the cabin's 28-volt power supply. This USB port is solely used for charging and does not transmit data.

Four covers are available to attach and hold tablets to the personal tablet arm. They support the following devices:

- › iPad 1
- › iPads 2, 3 and 4
- › iPad Air™
- › Samsung Galaxy Tabs 1 and 2

Building trust every day

KEY FEATURES/BENEFITS

- Enables tablet use as personal displays within the cabin, letting passengers view and listen to audio and video content loaded on the tablet, or streamed to the tablet via the cabin's Wi-Fi® network
- With downloadable apps for the Venue high-definition cabin management system, iPads can function as wireless remotes for cabin control, or can display the interactive Airshow moving map via flight data received from Airshow
- Keeps personal tablets fully charged through an embedded USB port that accepts a standard tablet cable
- Fully tested for quality of service (including loads, abuse loads, moisture and EMI emissions); the personal tablet arm is considered a passenger carry-on device

SPECIFICATIONS

- Full angle of rotation around the swing-arm is 175°; tilt pivot is 10° toward the viewer; tilt pivot is 25° away from the viewer
- Utilizes existing HTSE receptacle (part number 441-0175-100) – no additional hardware installation
- Input power is 28VDC
- +5VDC @ minimum of 2A max power, 10 watts, charging to tablets via a USB port
- Weight is 1.58 lbs/.72 kg
- Three-year warranty

Note:

1. The Cabin Remote and Airshow apps for mobile devices are available from the Apple iTunes® Store and require software activation.
2. Limited availability of iPad 1 covers

Building trust every day.
