

FALCON CABIN MANAGEMENT SYSTEM

Mix business with pleasure.

Now you can create a cabin that reflects how you work and play, to the highest standard. Yours. Rockwell Collins offers an all-digital electronics system that elevates entertainment, global office and cabin management to the next level of quality, reliability and maintainability. All with a simple click or two via our Graphical User Interface (GUI). The Falcon Cabin Management System can fully integrate your entertainment and global office capabilities while providing more control over your cabin environment. That way, you can work or play without compromise. And, as your needs change, this system is designed to deliver more capability and true value.

Building trust every day

Travel without missing a beat.

Staying connected. In business, it's no longer an option but a necessity. With the Falcon Cabin Management System, your cabin is open for business all the time. Broadband Internet access brings Ethernet connectivity to each seat, and a wireless local area network allows multiuser access and printing. Or, if you prefer, you can simply talk by telephone. With an all-digital system, it's business as usual. And the system is easily upgradeable, with capacity to integrate future digital technologies. By focusing on your technical and business needs, we ensure you get just what you need to succeed.

Your global office capabilities support:

- Local area network
- Wireless laptop connectivity
- Telephone
- Printer/fax
- High-speed data
- Future growth to Broadband and VoIP

Display a presentation from your laptop for multiple viewing within the cabin via our all-digital system. Stay connected and enhance your productivity with every convenience of the global office.

Your home theater away from home.

All that you want in a home theater can be found in your cabin. From satellite radio to fully digital video to live satellite TV. Complete with a cabin management system where you choose the lighting, temperature, video and sound experience you want.

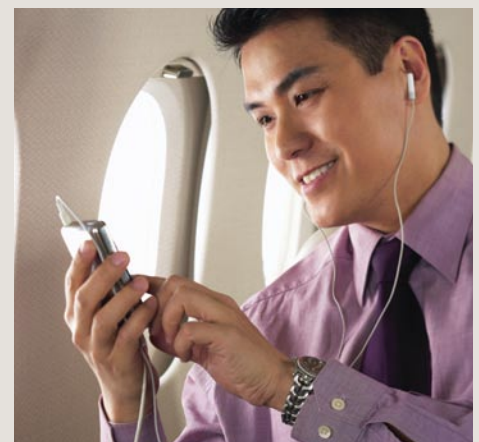

Enjoy easy access to entertainment options* that include:

- DVD
- CD
- MP3
- iPod®
- Satellite TV
- Satellite Radio (XM)
- Moving Maps and Flight Information

The perfect mix: proven, functional, reliable.

Our digital system is as advanced as it is easy to maintain. With centralized diagnostics, you can spot a problem early on. Reduced wiring and common off-the-shelf spares make it easier to change or retrofit a component. Our innovative single-loop design helps enhance audio/video and office functionality, simultaneously. And fault tolerant, self-healing capabilities help to prevent downtime. Based on a proven core technology, you can count on Rockwell Collins. Backed by a global support network, we ensure you can work smart and play hard. No matter where you fly.

Your GUI, color-themed to fit your interior, allows you to customize your cabin. Enjoy the power, comfort and convenience you want, at your fingertips. Our all-digital system gives you control while enhancing your capabilities to satisfy your entertainment and global office needs. Today and tomorrow.

When it's time to relax, simply click on the entertainment option of your choice. You can also personalize your cabin environment to create the entertainment experience you prefer.

*Some options may be offered as standard based upon the Falcon model.

Building trust every day.

Rockwell Collins delivers smart communication and aviation electronics solutions to customers worldwide. Backed by a global network of service and support, we stand committed to putting technology and practical innovation to work for you whenever and wherever you need us. In this way, working together, we build trust. Every day.
