

In touch. In flight. Done right.
The Gogo Biz[®] Internet
and voice system

ATG 5000

ATG 5000

Internet and voice

If you need a complete Gogo Biz[®] Internet and voice solution, the ATG 5000 may be just what you're looking for.

ABOUT ATG 5000

Perhaps you've considered an integrated Internet and voice solution for your aircraft. Maybe you already have a voice solution and need to add in-flight Internet. In either of these scenarios, the ATG 5000 is the perfect system for business aviators who want a high performance Internet and voice connection.

Surf the Internet and talk on the phone at the same time. Send and receive email with attachments. Log into your corporate VPN using your own laptop, tablet or smart phone. Enjoy seamless coverage aboard any aircraft across the Continental U.S. and portions of Alaska and Canada. All so you can stay as connected in flight as you are on the ground.

SIMPLY THE FINEST IN-FLIGHT EXPERIENCE

- Standalone equipment for use with the Gogo Biz in-flight Internet and voice service
- Can operate alongside any manufacturer's voice solution
- Full mobile broadband - similar to a hotel or coffee shop (use your laptop, smartphone, or tablet)
- Crystal-clear voice (optional) - similar to a mobile phone call on the ground
 - Up to two simultaneous calls
 - Compatible with the Gogo[®] OnePhone cabin handset
 - Compatible with personal smartphones (with the Gogo Text & Talk service)
- Lightweight and modular
- Affordable service plans, offering unlimited and usage-based options
- Wide Area Network (WAN) Management - allows automatic handoffs between SwiftBroadband and Gogo Biz
- Coverage in the Continental U.S. and portions of Alaska and Canada, starting at 10,000 feet above ground level (or higher).

ATG 5000

Internet and voice

SIMPLE INSTALLATION. WHETHER YOU'RE FLYING ATG 5000 SOLO OR WITH AN EXISTING SYSTEM

Since the ATG 5000 has no top-mounted antenna, in most cases aircraft interior headliners do not need to be removed for installation, saving labor and shortening downtime.

An ATG 5000 installation package is very simple and lightweight:

- ATG 5000 unit
- Configuration Module
- Two belly-mounted air to ground antennas
- Cabin Telecommunication Router (CTR) — for optional Wi-Fi service.
