

A single box
for an entire world
of Iridium[®] voice, data
and safety services

ST 4300

ST 4300

Voice and narrowband data

Takes everything Iridium® can do and lets you decide exactly what you want it to do.

ABOUT ST 4300

Flexible, affordable, compact, and scalable, the ST 4300 combines voice and data functionalities into a single box, allowing you to configure cabin and flight deck connectivity based on your own needs and budget. Select 1, 2, or 3 voice channels to make and receive calls anywhere in the world.

Install it as a standalone system or integrate it with Gogo Biz® or SwiftBroadband systems for broadband Internet capabilities. Significantly improve call clarity with the Gogo OnePhone. It's all possible with this modern platform designed for Iridium service now and in the future.

MULTI-CHANNEL WORLDWIDE SATCOM SYSTEM

- Available with 1, 2, or 3 Iridium voice/narrowband data channels. Includes one dedicated Iridium data channel
- Fax service available
- Eligible for FANS Over Iridium (FOI) certification and ACARS*
- 802.11b/g/n Wireless Access Point
- Optional Internet connectivity by adding Gogo Biz for coverage in the U.S. and portions of Alaska and Canada, or by adding SwiftBroadband for global coverage
- Compatible with Gogo OnePhone – for the ultimate in Iridium call clarity
- Full PBX (up to 100 extensions)
- ARINC 739/cockpit integration
- Simplified aircraft installation and integration
- DO160G and DO-178 Level D approved
- Service available on-the-ground and in-the-air
