

Smart router.  
Media server.  
Unified. Simplified.

UCS 5000

## UCS 5000

Smart router and media server

All-in-one smart router  
and media server.  
Powerful functionality  
in one system.

### ABOUT UCS 5000

UCS 5000 is business aviation's first all-in-one smart router and media server – combining powerful functionality into one system that orchestrates, manages, and delivers today's incredible array of connectivity, entertainment, and information services.

As a smart router, UCS 5000 dynamically manages multiple networks. As a full-function media server, it is your gateway to Gogo Vision - which gives you on-demand, in-flight entertainment, as well as file sharing and access to Cabin Management Systems.

UCS 5000 is compatible with Gogo Biz®, so it supports Gogo® Text & Talk, which lets you use your own phone, and your own number, in flight.

### SMART ROUTER

- 802.11b/g/n Wi-Fi service
- Single SSID for cabin network and CMS control
- Wireless access point
- Dynamically manages multiple data networks
- 3G/4G modem
- Enhanced data compression

### MEDIA SERVER

OPTIONAL GOGO VISION SERVICE:

- On-demand movies
- TV episodes
- News
- Flight information
- Destination weather
- Moving Maps
- Laptop-to-laptop screen sharing and file sharing

## UCS 5000

Smart router and media server

### SMALL. SIMPLE. EFFICIENT.

But UCS 5000 is more than just a management maestro, it's an operational marvel. It's small. It's affordable. It adds new features via software keys instead of hardware. And it completely reinvents updating: wirelessly and automatically via Gogo Cloud.

### COMPATIBLE BEARERS

- ATG 5000/4000/2000
- Axxess
- SwiftBroadband

### SMART ROUTER

Wi-Fi

Compression

WAN Management

### MEDIA SERVER

Movies / TV
